

Table 5 Multivariate analysis of the associated risk factors for pre- or extramarital sex among truck drivers and youths

Variable	Odds ratio	95% CI	P-value
<i>Risk group</i>			
Youths	1	–	< 0.0001
Truck drivers	4.60	3.04–6.96	
<i>Access to satellite television</i>			
No access	1	–	0.001
Access	2.87	1.53–5.36	
<i>Access to Internet</i>			
No access	1	–	0.04
Access	1.98	1.04–3.78	
<i>STIs knowledge</i>			
Low	1	–	0.006
High	2.07	1.24–3.46	
<i>HIV/AIDS knowledge</i>			
Low	1	–	0.05
High	1.53	1.01–2.32	
<i>Sexual attitude</i>			
Negative	1	–	0.0003
Positive	2.20	1.44–3.37	
<i>Susceptibility to illegal drug use</i>			
Not susceptible	1	–	0.0001
Susceptible	2.59	1.63–4.13	

STI = sexually transmitted infection; HIV = human immunodeficiency virus; AIDS = acquired immune deficiency syndrome.

CI = confidence interval.
