

Table 2 Fungi isolated in sewage sludge samples from different wastewater treatment plants in Sari city, by the hair-baiting technique

Genus	Wastewater treatment plant <sup>a</sup>				
	A	C	D	E	F
Chysosporium spp.	-	-	+	+	-
Geotrichum spp.	-	-	-	-	+
Yeasts	-	-	-	-	+
Microsporium gypseum	+	+	+	-	-

<sup>a</sup>Samples were taken from the following wastewater treatment plants: A = wood and paper factory, B = dairy factory, C = wood factory, D = local village, E = slaughterhouse, F = soft drink production factory, G = school of medicine. No fungal growth was observed from plants B and G.
