

**Table 2 DNA histogram types and nuclear DNA ploidy content distribution in pathological specimens belonging to 137 breast cancer patients**

<b>DNA histogram type</b>	<b>No. of cases</b>	<b>%</b>
I (diploid)	16	11.6
II (tetraploid)	11	8.1
III (aneuploid)	68	49.6
IV (aneuploid)	42	30.7
Total	137
