

Table 1 Distribution of population (N = 3955) and sample (n = 2043)

Institution	Total no. of students (Si)	Sample weight (ai) ^a	No. of students in sample ^b
Anatolian high school	600	0.15	310
Vocational high school	3355	0.85	1733

^a $ai = Si/N$.

^b $ai \times n$.
