Guillain-Barré syndrome and COVID-19 vaccines

02/09/2021

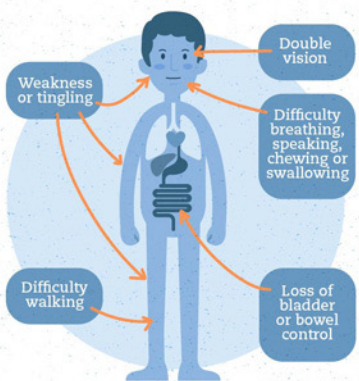

Guillain-Barré syndrome is a **rare disorder** that occurs when the immune system accidentally attacks the nerves coming out of the spinal cord. **Most people affected recover fully.**

There have been **very rare** reports of cases of Guillain-Barré syndrome after vaccination with the AstraZeneca and Johnson & Johnson/Janssen COVID-19 vaccines.

It is not yet known whether these cases are connected to or caused by the vaccines.

If you experience any of these symptoms within 42 days of vaccination, contact your doctor immediately:

Did you know? Guillain-Barré syndrome has many causes, including COVID-19 disease.

The benefits of COVID-19 vaccines greatly outweigh the risks.

Get vaccinated, as soon as it is your turn.

If the number of admitted COVID-19 patients in a city is <2 per 100,000 populations per day, the status of that city will be blue; if the number is ≥2 and <4 per 100,000 populations, the status will be yellow; if the number is ≥4 and <6, the status will be orange; and if the number increases to ≥6, the status will be red.

The status of the cities is being updated in the Mask app, endorsed by Iran's Ministry of Health and Medical Education, Link to the Mask application website: <https://mask.ir/>

Imposed National and Provincial Restrictions

As a patient-tracking measure, all citizens are required to be in possession of their national ID cards as a prerequisite to gain entry to government offices, receive public services, or use public transport.

As of 21 November 2020, the following scheme, called “smart management of restrictions,” has been implemented nationwide. In this scheme, the alert level for the cities is reviewed weekly, and corresponding closures/openings are applied for one week. More details on the alert level of cities

can be found on the risk map and provincial capitals risk status table.

Technical Deputy of Ministry of Health Environmental and Occupational Health Center announced that reception halls are allowed to operate in cities of blue and yellow status. The maximum number of participants allowable in a hall is 75 people in blue cities and 55 in yellow ones. However, in outdoor halls the maximum capacity may be twice these numbers. The maximum duration of events is 3 hours.
