

Shisha use

- 3.5% of Egyptians are *shisha* smokers

- 56% of *shisha* users smoke *shisha* at home, while 36% smoke *shisha* in cafes

- 98% of *shisha* smokers use unflavoured tobacco

Smokeless tobacco

For the first time, GATS revealed the use of smokeless tobacco in Egypt. It is the third most widely used form of tobacco after cigarettes and *shisha*.

- 3% of Egyptians chew tobacco
- Use of smokeless tobacco is highest in rural Upper Egypt
