

Key Figures - From January to Aug

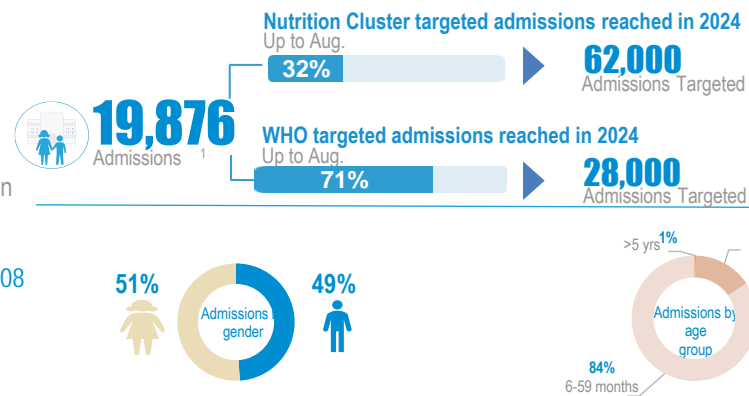

Service Utilization January-August

From January to Aug 19,876 children have received life-saving services in WHO-supported TFCs, of which 3,118 (15%) are children under 6 months.

The quality of service is evidenced by the recovery (96%) and death (1%) rates. Each caregiver 18,876 in total . benefits from at least 5 counselling sessions per hospital stay on IYCF best practices. This might contribute to the observed decrease in relapse rate (2%) in Aug

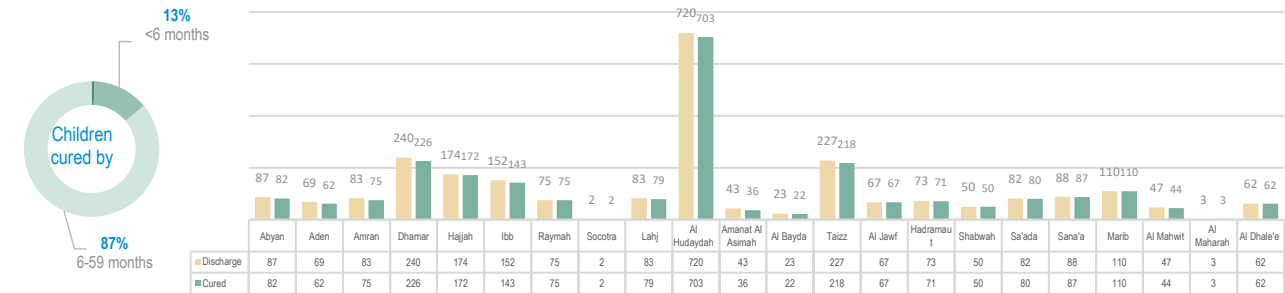

By ensuring the care for most critical cases in pediatric wards in referral hospitals with TFCs, 9,208 children were admitted from Jan to Aug in these referral hospitals for intensive care.
